RE: [External/Externe]: Re: Transport Canada Access to Information and Privacy A-2023-00361

Response

Good afternoon,

I have contacted the subject matter experts concerning your November 30th email regarding records related to your request. I have been advised that we do not have any additional records pertaining to the spraying of substances in the atmosphere by parties involved in flight operations (of aircraft) for the Eastern Townships (greater Sherbrooke) region of the province of Quebec between January 1st, 2009 and October 20, 2023.

The relevant region's subject matter expert has confirmed that they do not possess any records that relate to the subject of this request.

Unfortunately, there are no other records to provide as a response for this request.

Please feel free to contact me with any further questions or comments.

Best,

Sarah MacKinnon (she/her/elle) 😊
